Letter Assurance of (LOA) Instructions

The **LOA** must be filled in and signed by the **End-User** (person using the toxin or is the person who is supervising the use of the toxin, e.g. Principal Investigator).

We strongly suggest that the End-User should provide us with an abbreviated version of their **CV**, The CV is not necessary, but on occasion the U.S. Department of Commerce has requested them. If we have it on file, it facilitates getting licenses.

If the Ultimate Consignee is an importer for the purpose of resale or transfers the toxin to a third party (the End-User) the LOA is to be sent to the End-User to fill out and sign.

If you have further questions, please feel free to contact us.
